

IDAHO NATIONAL LABORATORY GRADUATE FELLOWSHIP PROGRAM

Idaho National Laboratory (INL) believes that graduate studies are crucial for the next generation of engineers, researchers, scientists, and leaders. The INL Graduate Fellowship program, a collaboration between INL, universities and participating students, provides access to unique and state-of-the-art facilities and capabilities. INL is committed to integrating students with projects at the laboratory to fulfill their thesis research requirements.

OVERVIEW

The INL Graduate Fellowship Program is designed to identify exceptional talent in research areas aligned with INL's strategic agenda to enable the current and future mission of the Department of Energy

(DOE) and INL. This collaboration is designed to provide meaningful research, financial support, and mentorship throughout the fellow's Ph.D. program.

BENEFITS

The INL Graduate Fellowship program is a competitive program for outstanding students seeking a Ph.D. in an area aligned with the laboratory's mission. It provides:

- Hands-on experience working with and learning from renowned researchers and scientists
- Specialized training for students in their field, including career development and networking opportunities

- Financial support from both INL and the University for tuition and associated fees
- Competitive salary of \$60,000 per year while students are completing their Ph.D. thesis research at INL

CANDIDATE REQUIREMENTS

At a minimum, candidates will:

- Be enrolled in Ph.D. program or applied to Ph.D. in a science or engineering discipline that is closely related to INL's core areas of interest. (Note: Cyber security master's students may be considered.)
- Have the support of their university to provide tuition coverage during

the pre-candidacy portion of their degree program.

- Have a minimum cumulative GPA of 3.5.

FELLOWSHIP TIMELINE

First years of Ph. D. program:

- An INL technical advisor will be identified to guide the research of the INL Graduate Fellow in partnership with the student's university thesis advisor.
- Student will begin collaborating with INL technical advisor and may participate in INL paid internships while completing their core course work.
- INL Graduate Fellow will spend most of their time at the university taking classes.

Last two years of Ph.D. program (Once accepted for Ph.D. candidacy, start date is established between student, advisor, and Graduate Fellowship Specialist, and is subject to change):

- INL Graduate Fellows will spend most of their time at INL conducting research.
- INL Graduate Fellows will receive an annual salary of \$60,000.

- INL Graduate Fellows will receive financial support from INL for tuition for the final two years of their PhD program.
- Progress will be reviewed annually to ensure students are making reasonable headway toward the completion of degree requirements. The appointment will end when the student submits their thesis and applies for graduation.

APPLICATION PROCESS

To apply, go to inl.gov/careers and select "Search Internships."

Candidates will need:

- Curriculum Vitae or resume.
- Unofficial transcripts with current course descriptions.
- Date of estimated availability for the 2-year research assignment at INL.
- Letter of interest including:
 - Proposed dissertation research.
 - Long-term professional goals (*Maximum length: Two pages in letter format (U.S. 8.5" x 11", single sided)*).
- Two letters of recommendation. One recommendation must be from Ph.D. advisor. Letters of

recommendation can be emailed to GraduateFellowships@inl.gov.

APPLICATION TIMELINE

Applications open in October and close mid-February for the following year. Selections will be announced in May.
